Research manager

Research management

Goals :

› to coordinate applied interdisciplinary research activities in a stimulating environment;
› to organize scientific information, to facilitate collaborative work and to maintain a knowledge management strategy;
› to manage projects, to assess their progress and to ensure proper awareness of accomplishments towards various audiences.

Research & Development

Researcher

LAAS-CNRS, Toulouse (2005 – 2008)

› Development of a lab on a chip based on thermoresponsive polymers
› Applications: microfluidics & sample preparation for biology
› Interdisciplinar research, involving microelectronics, surface chemistry, polymers, proteins & integration of systems

Research assistant

CEA-Léti, Grenoble (2004)

› Development of a fluorescent antibody micro-array
› Setting up of a new process of surface functionalization based on chemical vapor deposition.

Education

Ph.D

› Design of fluidic microsystems & labs on chips. University of Toulouse (2008).

Master of Science

› Nanosciences, nanodevices & nanomeasures. INSA Toulouse (2005).

Engineering degree

› Semiconductors, devices & instrumentation. INSA Toulouse (2005).

Management & communication

Event manager

Wikimedia Deutschland (2009)

› Organizer of the Wikimedia Conference 2009 in Berlin

Marketing & communications volunteer

Wikimedia Foundation (2006 – 2009)

› Customer relationship management
› Visual identity consulting, creation of educational & marketing documents

Member of the Board

Wikimédia France (2006 – 2009)

› Events, PR management & organization

Editor & photographer

Wikimedia & Wikipedia (2005 – 2009)

› Author of encyclopaedic articles & photo-reporter
› Author of a Wikipedia handbook.

Skills & leisure activities

› Design, desktop publishing: creation of brochures, leaflets, reports & other documents
› Web : Online publishing, web 2.0; some knowledge of HTML/CSS.
› Advanced level of English; learning German
› Photography (see www.gpaumier.org), acting, directing, singing.
